

The radio station K-LOVE is a vital part of my day. It helps me to stay positive & contribute to my community in a positive way. K-LOVE keeps people's heart in the right place & lifts their spirits. The news is always so bad anymore that it is a joy to hear the good news of the day from K-LOVE! If more people listened to K-LOVE we wouldn't have school shootings, suicides, divorce, or drugs & alcohol abuse. Need I say more! The FCC would be doing a great dis-service to the American people & my community by allowing these LPFM stations (or any stations for that matter) to take priority over K-LOVE.
